9018.90		Evis Lucera Elite Endoscope	
9030		"OLYMPUS" Model	

A. Features :

1. Gastro Videoscope, Model : GIF-HQ290

1) Dual Focus

Dual focus, a unique olympus optical innovation, allows the user to select from two focus settings.

With the simple push of a scope button, the desired depth of field for observation can be optimized to either the near field of normal field.

2) Enhanced image quality

A new level of resolving power is achieved thanks to a new optical system.

Combination of the scope and the system provides superior imaging.

3) NBI

NBI in evis lucera elite provides twice the viewable distance of evis lucera spectrum.

The greatly improved performance of NBI opens up exciting new clinical applications and reinforces NBI's position as the standard of care for GI endoscopy.

4) Water Jet

A forward water jet helps to keep the mucosal clear during observation and treatment in the upper GI tract.

5) Waterproof One-touch Connector

A new connector design minimizes the effort required for setup prior to and in between cases.

In addition, it is fully submersible and eliminates the need for a water-resistant cap and the associated risk of an expensive repair due to accidental immersion.

B. Specifications :

1. Gastro Videoscope, Model : GIF-HQ290

1) Optical system

* Field of view : Normal focus mode 140° / Near focus mode 140°

* Direction of view : forward viewing

* Depth of field : Normal focus mode 7-100mm / Near focus mode 3-7mm

2) Distal end outer diameter : 10.2mm

3) Insertion tube outer diameter : 9.9mm

4) Working length : 1,030mm

5) Instrument channel

* Channel Inner diameter : 2.8mm

* Minimum visible distance : 3mm from the distal end

6) Bending section

* Angulation range : Up 210°, Down 90°, Right 100°, Left 100°

7) Total length : 1,350mm

C. Consists of :

1. Gastro Videoscope, Model : GIF-HQ290

1 SET

D. Remarks :

1. The equipment should be installation by contractor.

2. Two years of Scope warranty after the installation and correct operation.
